Expedia.ca and World Access Canada Improve Online Travel Insurance

--Efficient and user-friendly travel insurance available at the click of a mouse--

Toronto, ON – October 14, 2003 – Expedia Canada Corp. has partnered with World Access Canada to offer travel insurance online for trips booked on Expedia.ca™, one of Canada's leading online travel services. With this new service, Expedia.ca customers can easily access travel insurance policy and premium details as they are in the process of booking their trip, allowing them to preview the total trip cost including insurance premiums prior to finalizing their purchase.

"Protecting one's trip investment and health while travelling is very important and should not be overlooked when planning a trip," says Stuart MacDonald, Managing Director of Expedia Canada Corp...

Mark Anevich, President of World Access Canada adds, "We are very pleased to launch this technology with an industry leader like Expedia.ca knowing that it will allow more travellers to obtain the protection that best suits their travel needs."

Visitors to many online travel sites are directed to an external provider's website to purchase travel insurance after buying a trip online. Thanks to their partnership with World Access Canada, Expedia.ca has dramatically improved the accessibility of insurance coverage for their customers by allowing them to access and pay for their whole trip, including insurance, all in a single purchase.

Expedia.ca now offers Air Ticket Protector, Deluxe Medical Coverage and Combined Air and Medical Coverage insurance products, all offered by World Access Canada Insurance Brokers Inc. Since these products were added to the Expedia.ca flight booking process, overall travel insurance sales have risen significantly.
